MY PROJECTS

PIX MENDER
- Built a website for uploading IDs, photos, and signatures.
- Enables users to upload all data in one place, which is then sorted and uploaded to the database and stored in three different folders in database for photos, signatures, and ID documents.
- Technology Stack Used : ReactJS, Express JS, Node JS, JavaScript, CSS, Firebase, Python.

LEADS TRACKER
- Developed a Chrome extension for streamlined lead management with user-friendly interface and dynamic lead list.
- Implemented data persistence via local storage and improved performance through function parameters and template strings.
- Successfully deployed the extension for practical use.
- Technology Stack Used : JavaScript, HTML, CSS, and Chrome APIs.
